## LITTLE LEAGUE BASEBALL

The heat seemed to lubricate the swinging joints of the Carbon Club Tuesday as they handed the hungry Swalwell Club a 22 to 8 trouncing. We changed our lineup a little to see how the rookies would roll and they did a fine job. Big Grant McIntosh pitched nice ball for two innings but got a little nervous when the infielders made a few errors which loaded the bases. (How is the lump in the throat Grant). Little Grin Diede came in to relieve Grant and had a shaky start but he kept cool and only allowed four runs to cross home during the remainder of the contest, getting six K.O. out of 21 batters. (Nice work Grin). Our new find at backstop was like a wall. The old horsehide had to be wide and high to get past Kozy Kozak who held the pitchers for four innings. Big guns for Carbon were Ollie Ohlhauser with one round tripper and three 3-baggers for six times at bat. Midge Esau got in the groove with a round tripper and two singles. (Look out Johnny and don't make any bets). Fritz Nash laid out two beautiful bunts to advance runners and brought in two runs. Well fans our next game will be June 3 when Acme comes in to knock the top off our lovely park at 6:30 sharp. The kids appreciated the free pop given them by Keith our new merchant at the soda fountain in the drug store. Thanks Keith and I also wish to thank the people that donated to the game who were unable to be there.

Mr. and Mrs. C. Cave and Mrs. Levins spent a couple of days in Calgary before Mrs. Levins left for England on Friday morning. It is quite a trip for Mrs. Levins who was 80 years old on her last birthday. We wish her a safe journey.

We have been informed the first load of material has arrived for our new telephone building. As you notice our new B.A. Station is well on its way. Our old town is again on the boom.

Mr. and Mrs. Beck and family of Edmonton are spending a few days at the home of their sister and brother-in-law Mr. and Mrs. Norman Nash.

Mrs. Fred Fuller and girls, Miss Ruth Fuller have returned after spending the past two weeks at Victoria visiting with their daughter and son-in-law Mr. and Mrs. Sid Ginther and brother and sister-in-law Mr. and Mrs. Jack Evans.

Mr. and Mrs. Ray Payne and baby daughter Patti Marie were visitors at the home of their parents Mr. and Mrs. W. Hay. Mrs. Hay returned to High River with them where she will spend a couple of weeks. Ray is employed by High Tower Drilling at High River.

Mrs. Jack Barnes was called to Cloverdale owing to the illness of her father.

Our sympathy goes out to Mr. George Isaac and son of Bowden in the loss of a dear wife and mother, Sylvia who passed away suddenly last Saturday morning in the Innisfail Hospital. Funeral service was held at Bowden on Wed. with interment in Mountain View Gardens, Calgary.

Mr. and Mrs. Buster Hunt and Mr. and Mrs. Jim Nadasi were Carbon visitors at the home of Mr. and Mrs. H. Hunt.

Come along and visit our beautiful park and have a swim in our local swimming pool which was opened recently. It is certainly a bee of excitement these days.

A surprise party was held at the home of Mr. and Mrs. Harry Hunt in honor of their 44th wedding anniversary and Harry Hunt's birthday.

Mrs. Cadman is out of hospital after being confined several weeks with a broken foot.

## CARBON HOME & SCHOOL SPECIAL GENERAL MEETING

The regular meeting of the Home & School will be held in the School Auditorium Thursday 5th June, 1958 at 8 p.m.

The business will include: A Special General Meeting, notice of which is hereby given to deal with the following business:

- (a) Responsibilities arising out of ownership of the Library Building.
- (b) Qualifications for membership.
- (c) Election of Directors and Officers.

There will also be a meeting of the LIBRARY COMMITTEE to consider the future of the library and sponsoring groups are asked to send representatives. Lunch will be served.

This is a most important meeting affecting the future of both organizations and you are all asked to make an effort to attend.

## GAMBLE NEWS

Mrs. M. Lund of Camrose was a visitor at the home of Mr. and Mrs. McIntosh.

Joyce Anderson was home for the weekend.

Mr. and Mrs. J. Snell attended the Brooks Bull Sale and purchased a bull there.

Mr. and Mrs. D. Hunter and family of Craigmyle were visitors at the home of Mr. and Mrs. Russell Snell over the weekend.

We are sorry to hear Bert McCracken is sick with the mumps. Wrong time of the year to be shut in Bert.

Mr. and Mrs. C. O. Martin and Mr. and Mrs. Bert McCracken were fishing at the River Sunday.

Mr. and Mrs. A. Metzger and boys attended the funeral of Mrs. Metzger's uncle the late Mr. Hill of Calgary.

Mr. John McNeil was a visitor at the Graff home over the weekend.

## Acme

Mr. and Mrs. Vic Abrey of Leroy, Sask. are visitors at the home of their daughter and son-in-law Mr. and Mrs. Alex Merkosky.

Acme maintained their unbeaten record in the Kneehill Baseball League when they defeated Swalwell 10-3 Wednesday at Swalwell. Batteries were: Swalwell, Joe Viens; Lorne Boese to Bill Owens; Acme, Chester Mayhew, Glen McKay to Bob Hannah.

Graduation Exercises were held Friday evening May 23 in the auditorium of the Dr. H.

M. Elliott School at Linden with over 250 in attendance. Sixty-six sat down at the tastefully decorated banquet table and enjoyed a lovely turkey dinner. Brian Gieck was M.C. and the usual number of toasts were given, followed by an enjoyable concert sponsored by the Students Union. Dr. Elliott was guest speaker.

Acme were Wimborne visitors Sunday for a Kneehill League baseball game and played to a 9-9 tie. Batteries were: Wimborne, Whittaker, V. Whatley, G. Whatley to G. Whatley, Whittaker; Acme, Vern Bitz, Glen McKay to Bob Hannah.

In their second game of the day at Sunnyslope, Acme had an easy time, blanking Sunnyslope 21-0. Batteries were: Sunnyslope, Peterson, Bev. Reddekopp, Dave Loewen, Ken Warkentin to Davis, Ken Warkentin, Dave Loewen; Acme, Jim Bates to Graham, Gall, Larry Wilson.

Glen McKay hit two home runs, one in each game.

In Little League baseball at Acme Tuesday, after being behind all through the game and trailing 12-5 going into the last half of the last inning, the Acme boys scored six runs and had the bases full before their rally fell short to lose 12-11.

Acme battery was George Kanderka, Kenny Ward to Bob Herring.

At a meeting of the Acme Pastoral Charge of the United Church, a call was extended to the Rev. Marvin Fowler of Sexsmith, Alberta. Rev. Fowler is a graduate of St. Stephen's College and is married.

This will be his second charge. He comes to his new position highly recommended by those who know him.

Rev. Keith Syer who has done such excellent work in this area will take charge of the Trochu Pastorate after June 30.

BORN—To Mr. and Mrs. John Rabouli, a daughter on May 26th. Congratulations.

## CARD OF THANKS

We wish to extend our sincere thanks to the many friends for their kindness, sympathy cards and floral tributes in the loss of my husband and our father.

Mrs. Hill and Family.

FOR SALE—3-Room House with Porch, two lots on the hill by J. Flaws house. Terms on trade or cash.

—Apply Bill Burgovic, Carbon

FOR SALE—Hoover Vacuum Cleaner complete in good condition.

—Apply Mrs. Sid Wright, Phone 42, Carbon.

**WEB PATTERN**—This all wool clear finished worsted is in "the web pattern". A very unusual weave in Fall men's fashion. Conventional flap pockets and center vent. It is a very casual looking yet dressy suit. It comes in gray, blue, tan, and blue-gray, and retails for about \$79.50. Sizes 36 through 46, short, regular and long.

### Ferry launched over Red Deer

The first ship through the Saules Locks in spring is big news to Canadians and Americans living along the St. Mary's River, and rightly so, for it marks the official opening of spring and resumption of navigation on the Great Lakes.

However, no one in these parts rejoices more than those living north and south of the Red Deer River, when the ferries are put back into the water. It too, is a sign that north-south travel can proceed, and an end to crossing on the ice during the winter plus the delay while waiting for ice to go out in the spring.—The Herald, Hanna, Alta.

## Sweet Treat

And so easy with fast-rising Fleischmann's Active Dry Yeast... a treat that will bring demands for "more, please!"

### Honey Bun Coffee Cake

1. In an 8-inch square cake pan, melt  
3 tablespoons butter  
or margarine

Drizzle with  
1/2 cup honey  
and sprinkle with:  
1/2 cup broken salted  
nutmeats

2. Scald  
1/2 cup milk  
Remove from heat and stir in  
1/4 cup honey  
1/4 teaspoon salt  
1/4 cup shortening

Cool to lukewarm.  
3. In the meantime, measure  
into a large bowl  
1/2 cup lukewarm water  
1 teaspoon granulated  
sugar

and stir until sugar is dissolved.  
Sprinkle with contents of  
1 envelope  
Fleischmann's  
Active Dry Yeast

Let stand 10 minutes, THEN  
stir well. Stir the lukewarm  
milk mixture and  
1 well-beaten egg  
1/2 teaspoon vanilla

Into the yeast mixture.  
Sift together once  
2 cups once-sifted  
all-purpose flour  
3/4 teaspoon ground  
cinnamon

Sift dry ingredients into yeast  
mixture and stir until well  
blended—about 1 minute.

4. Spoon mixture into prepared  
cake pan. Cover. Let  
rise in a warm place, free from  
draft, until doubled in bulk—  
about 1 1/4 hours. Bake in a  
moderately hot oven, 375°,  
about 35 minutes. Turn out of  
pan immediately. Serve warm.

Needs no  
refrigeration.

## Wool suit is best buy, but more to it than fabric

(Second of Two Parts)

How to determine a suit's  
quality and fit

What is meant by good tailoring? Two or more suits on a rack in a men's clothing shop may be made from the same fabric, but need not necessarily have the same price tag. The higher-priced suit has as many as two hundred hand operations to provide a better fit. In the manufacture of cheap suits, many of these expensive hand operations must be eliminated. Remember — you get only what you pay for.

A few minutes spent in examining a suit at the time of sale will get you a better suit for your money. Look for general workmanship in the matching of stripes and patterns at the seams, pockets and coat opening. Examine the inside of pockets for careful stitching. Inseams should have adequate fabric allowance for alterations, and button-holes should preferably be hand-sewn. Pockets must be ample in size and carefully constructed. Linings last longer when they are smooth and even and made of a durable cloth.

You can see all these qualities, but there are also hidden qualities that can only be determined by making inquiries of the salesman. These pertain to the fabric used inside the coat front. High-quality suits use hair canvas made from goat hair and wool in preference to plain burlap or cotton. For collar interlinings, firm linen keeps the collar from losing its shape and body. Shoulder padding of soft cotton provides a more natural drape, important to consider with the wide-spread popularity of "Ivy" league type clothing. Tape used at armholes and along lapel-edges prevents stretching and puckering.

Suits must fit perfectly; otherwise they won't look right or give the utmost in service. No reputable clothing store will let you purchase a suit unless it fits properly, since it's to their advantage to have you looking your best. Before checking your appearance in a full-length mirror, be sure the suit feels comfortable when trying it on. Freedom of movement means that the jacket should not cut under armpits or be so tight-fitting that the wearer feels imprisoned. If the suit feels comfortable, then ask the salesman to call in a fitter.

Make sure the fitter checks the collar to see that it rests smoothly around the neck. About one-quarter of an inch of shirt collar should show across the back of neck. Lapels should hold close to chest and remain flat despite changes in movement. See that the coat covers seat completely. The shoulder line should remain firm and unbroken from neck to shoulder point. Sleeves should never be too full to cause wrinkles, but should be long enough to almost cover shirt cuffs. Allow about one-quarter of an inch of shirt cuff to show.

The appearance of the coat is very important. If it hangs straight, both in front and back, with no wrinkles, it's okay. The

trouser length depends upon the customer. Some men prefer no break, while others are inclined toward a slight break. A deep break makes trousers look too long and permits rubbing, which causes trouser cuffs to wear out quickly. Attention should not be drawn to the seat and crotch. No wrinkles should be seen when the wearer stands normally. Trouser crease should be straight up and down and follow the pattern in the fabric. See that trousers hang evenly. Sides where pockets are located should not bulge.

By following these directions and selecting a suit that fits correctly and is styled right, you'll receive many admiring glances from family, friends and fellow workers.

### Watino slide rips mile of NAR track

(By Jim Bowes, Staff Writer)

A fleet of bulldozers and close to 60 men were working six miles east of here to restore nearly a mile of railway grade ripped to shreds by slides.

There was no indication when normal traffic over the Northern Alberta Railway tracks could be resumed.

Tipoff to the slide which tore gaping holes in the grade and dropped the tracks as much as five feet, came when the sleeping car of the N.A.R.'s westbound passenger train jumped the track west of Culp.

Rest of the train had passed safely over the weakened tracks. Leaving the derailed sleeper behind, the train arrived at Watino three hours late, and continued on to Dawson Creek.—The Herald-Tribune, Grande Prairie, Alta.

### Highway petition will circulate

The Chamber of Commerce supper meeting was held recently in Legion hall with the Legion auxiliary catering.

It was decided to circulate a petition re the location of the proposed new highway through town. The petition is to request that the road go through in its present location. Later a delegation will go to Regina and present the wishes of the town to the minister in charge.

Other business discussed dealt with the proposed nursing home, the official opening of the Senior Citizens' Home and a paint up day for benches and trash cans in the park.—The Gazette-Post News, Carnduff, Sask.

### PRACTICE ROAD COURTESY

## BACKACHE May be Warning

Backache is often caused by lazy kidney action. When kidneys get out of order, excess acids and wastes remain in the system. Then backache, disturbed rest or that tired-out and heavy-headed feeling may soon follow. That's the time to take Dodd's Kidney Pills. Dodd's stimulate the kidneys to normal action. Then you feel better—sleep better—work better. Get Dodd's Kidney Pills now.

#### LET US FOLLOW JESUS

It is the last conversation of Jesus and Peter of which we have record. It was a couple of weeks after the resurrection. Jesus had revealed to Peter that he would glorify God when he was old by dying as a martyr. Peter turning about saw John and asked, "Lord, and what shall this man do?" Jesus replied, "If I will that he tarry till I come, what is that to thee? follow thou me."

Here is a great lesson for us all. Whether or not John would die as a martyr was not the concern of Peter. Of the thousands of snowflakes which have been photographed no two have had the same design. So God never duplicates the blueprints for any two lives. Sometimes young Christians try to imitate an older Christian whom they admire. But when they do, it is often the faults which they unconsciously assume. God wants to develop each personality according to His own master plan. If we try to pattern after another Christian the plan will be marred and the beauty which God wills to express in us will not find its complete expression. Let us look unto Jesus and follow Him.

Of course John did not tarry until the return of Jesus. Late in life he was put in exile on the island of Patmos. There in visions he saw the time of the end. He saw the period of tribulation. He saw the great judgment throne, the glories of heaven and something of the torment of liars, adulterers and unbelievers who shall be cast into hell. Jesus in concluding his testimony to John in these visions said, "Surely I come quickly." John replied, "Amen. Even so, come Lord Jesus."

Only as we surrender our all to Jesus Christ can we follow Him. His grace will then be sufficient for us no matter where our path will lead. Let us follow Jesus.

#### FROM CANADA

Of the 159,704 "professional, technical and kindred workers" who migrated to the United States in the four years 1953-1956, 15,933 or 26.7 percent came from Canada.

Department P.P.L.,  
60 Front Street, W., Toronto.

## Fine Fabrics From Canada's Forests

# Rough Logs to Lacy Lingerie

With the ever-widening field of industrial application to which wood and wood products are being put, Canada's forests, always important, today lie at the very core of her economy.

The acetate lingerie featured above is but one of a wide range of exciting new materials made from wood cellulose. Versatile and easy to care-for, such fabrics have become indispensable in the modern woman's wardrobe.

This cellulose mill on Watson Island, 10 miles north of Prince Rupert, B.C. boasts the highest jack-ladder in Canada. The ladder is used to transport the logs from the

sorting pond into the mill for processing. The mill, located on a direct rail route with Prince Rupert, has its own deep-sea dock in an all-year protected harbour.

Jumbo-sized rolls of matted cellulose fibres — each weighing about eight tons — are submitted to a wide variety of quality-control tests before being cut into smaller bales for shipment to textile mills across Canada where they will

be converted into one of the many new synthetic fabrics which have contributed so greatly to the ease and comfort of modern living.

National Film Board of Canada Photos by Gar Lunney.

## CARONIA SPRING CRUISE DEPARTS FROM NEW YORK MAY 24

The Cunard Line's luxury liner Caronia will now sail from New York, Saturday, May 24, for her annual Spring Cruise to the Mediterranean, Cunard has announced. The fully air-conditioned liner was originally scheduled to sail for this cruise May 13 but a delay in the ship's arrival at New York from her annual World Cruise has necessitated this change.

The Caronia Spring Cruise now will comprise 33 days during which the ship will travel more than 11,000 miles and visit 13 ports in the Mediterranean. These will be Gibraltar; Tangier; Venice; Dubrovnik, Yugoslavia; Catania and Messina on the island of Sicily; Naples; Villefranche on the French Riviera; Barcelona; Palma in the Balearic Island; Lisbon; Cherbourg and Southampton. A

full program of shore excursions has been arranged by Thos. Cook & Son.

The cruise will end at Cherbourg and Southampton June 19 and passengers wishing to return home immediately can arrange passage in the Queen Elizabeth which sails for New York from Cherbourg and Southampton on that day. Return passage in any of 11 Cunard ships, including the superliners Queen Elizabeth and Queen Mary, is included in the cruise fare and passengers will have unlimited stopover privileges for touring the British Isles and the Continent before returning home.

Magellan's journey around the world began in 1519 and took 1,093 days.

(The Mercury, Estevan, Sask., April 24, 1958)

**RENOVATION**—Some idea of the changes made in the recent renovation project at Estevan's city hall are shown in these interior pictures. Top, a general view indicates the "individual desk" arrangement for staff members working behind the new I-shaped counter where city hall visitors are received. The semi-private office of City Treasurer Norah Mather is further to the left. Middle, shows other staff member desks located to the right of those in the top photo, while in the background is the semi-private office of City Clerk Jos Locke. Below, Mayor Harry Nicholson on one of the rare occasions when he could be found alone at his desk, surveys the vast expanse of the council table in the new council chamber located in the former Estevan Public Library.

—Estevan Mercury photos.

## Local waterworks approval rests with Federal authorities

The final decision on Rosthern's waterworks now rests in Ottawa. This was the verdict brought home by the nine man delegation to Regina last week.

The delegation also met with Russ Brown, Minister in charge of the Sask. Power Corporation, to obtain more information on the possibilities of the local area being served by natural gas. Mr. Brown explained that when gas demands in P.A. expand to such proportions where a second line is necessary, or in the case of an extra line from St. Louis to Melfort, Tisdale and Nipawin being built, a second loop into P.A. would become necessary and the logical place would be through Rosthern.—The Sask. Valley News.

(The Manitou, Watrous, Sask., April 24, 1958)

**THE MORNING AFTER**—Very much alive in this picture is one lone pig having "lunch" in the wreckage of the 30x70-ft. barn—wiped out by the tornado, April 16. Altogether, 118 pigs had a narrow escape.

## Tornado wrecks, neighbors rebuild

The spirit of the pioneer days has been demonstrated at Watrous since the time of the tornado on Wednesday, April 16. Minutes after the storm, neighbors gathered to assist Mr. and Mrs. Clint Leech, who apparently suffered most as a result of the disaster. Here, buildings were completely wrecked, while on the C. A. Rishel farm, much less damage was done.

### 96-Man work crew

On Thursday, several neighbors gathered up some of the debris from distant fields, and others searched the area for some of the 118 pigs that had not been reported. On Saturday morning, 96 men with several trucks and tractors arrived at the Leech farm, and spent more than six hours gathering up loads of broken lumber, oil drums and pieces of machinery from the fields and roadways, east and northeast of the building site. Others centred their activities in the farm yard, sorted out the remains of the barn and other buildings. Large quantities of the wreckage were stacked in the yard, and other lumber and dimension materials were sorted out in piles. Ladies of the Homemakers' Club and Legion Auxiliary served lunch and dinner to the workmen.

Hundreds of bales of straw, which were scattered by the tornado were collected. Some were used to make a temporary pen for some of the pigs, while other bales were taken to barns on nearby farms. Also, many of the "family" of 118 pigs that took off in dif-

ferent directions at the time of the storm, are also being looked after by neighbors.

On Saturday, H. V. Teal's tractor and bulldozer levelled off space and cleared debris to make room for a new barn, which was already being planned, under the direction of E. M. Busse and N. J. Allan.

### Organize disaster fund

While working at the monster bee, the men laid plans to organize a Watrous District Disaster Fund, and this was finalized at a meeting on Saturday night. The Watrous Branch of the Canadian Legion started the fund with a \$500 donation. A temporary committee was set up, with Neil McArthur, Chairman; C. Amundrud, secretary; A. J. Gordon, treasurer. Canvassers were named and they were out collecting early Monday morning.

The building committee planned a building, 72x24 ft., and forms were put in on Monday for the foundation and concrete floor. The concrete was run in on Tuesday, with three mixers being in operation. Walls of the building of rigid frame construction will be covered with weather-proof plywood.

Work on this project has gone forward at such a pace that the new structure should be nearing completion by the end of this week. Weather permitting, 50 willing workers, with J. M. Baker as supervisor, are expected to be on the job early Saturday morning, and they hope to complete the job in one day.

Pictured above is a sample only of the 118 "porkers" now boarding out since their "barn home" was carried off by the tornado, April 16. Over the straw bales can be seen the Clint Leech residence, which took quite a beating.

This picture shows four granaries to the right, which had a close call from the April 16 tornado. In the foreground is wreckage of other buildings strewn across the yard.

Jack Miner—Canadian Naturalist Bird lover—author—lecturer who lived a full life and received honors from men and women in every walk of life—He used to say "Don't work all your life to make a living but work to live all your life". Photo shows him in his woodlot where he kept a herd of deer as pets.

## REPORT SOME FARMERS VACCINATING HERDS AGAINST THREAT OF RABIES

There have been at least 13 known cases of rabid foxes in north Glengarry in recent weeks, according to Dr. J. H. O. Armstrong, dominion veterinarian at Cornwall. The cases are tapering off in Prescott County, but have been surprisingly frequent in north Glengarry lately. Officials are hoping it will get better soon.

Quite a few farmers in the infested area have moved to protect their herds by having them vaccinated against the disease. The Dominion Department of Agriculture does not recommend

such action to farmers, partly due to the fact that immunity does not occur until 30 days after vaccination. But Dr. Armstrong reports 800 to 900 have been vaccinated in Prescott and more and more dairymen in the northern part of this country are arranging with their local veterinarians for that protection. — The Glengarry News, Alexandria, Ont.

## Roger Eckstrand awarded \$2,700 in scholarships

Roger Olof Eckstrand of Punichy was among 22 Saskatchewan students awarded scholarships or fellowships in a National Research Council announcement recently.

Roger was awarded \$1,200 in Studentship, at McGill University. It was also announced recently he was awarded a scholarship of \$1,500 at Harvard University. He has accepted the scholarship at Harvard and will commence studies this fall.

At present Roger is attending university at Stockholm, Sweden. — The Touchwood Times, Punichy, Sask.

## HENRY BUSSE MAKES SOLO TRIP

Henry Busse, 62 years of age, is one of the proudest guys you ever saw.

Henry has been taking flying lessons from Raven Air Services and made his first solo flight, thus passing one of the big milestones in a flying career. He has been an enthusiastic pupil says instructor Vic Smith. — The News of the North, Yellowknife, N.W.T.

There are no snakes in the province of Newfoundland.

## BEAVER DAMS

The beaver has been known to build dams in Canada up to 14 feet high and several thousand feet long.

## Rugs from scraps

7331

by Alice Brooks

New rugs from old rags! Clear instructions tell how to weave, braid, hook, or crochet rugs at so little cost.

Pattern 7331: directions for 9 different rugs; necessary patterns and list of materials included. Make a rag rug!

Household Arts Department, Department P.P.L., 60 Front Street, W., Toronto.

# Editorials

from

## Canadian Weekly Newspapers

(These are not necessarily the views of the editor of this paper)

## Tradition is not shattered

(The Mercury, Estevan, Sask.)

It was more than interesting to hear the comments of many of the readers of The Mercury regarding the change last week of type style in the newspaper title.

It was anticipated that most people would notice the alteration from the old text style (so often incorrectly called Roman lettering) to the more modern for there is a vast difference between the shape and construction of the lettering of the two styles.

The comments dealing with the changed appearance were of the greatest interest for they revealed the different attitudes which different people may hold towards all the things about them. After all everyone has a perfectly legitimate and sincere opinion as to whether changes in our manner of living and in all the daily contacts are for better or worse or simply of no matter.

We found those (and we are inclined to agree with them) that the old fancy heading which had served the Mercury from its inception, had become a tradition. Or in commercial terms, a trade mark.

There were others whose reaction to the change was that it was indicative of keeping in tune with changing times.

Actually the latter assumption is the correct one. There are changes in typographical styles as there are in lady's gowns. The alteration of the Mercury title-line was in keeping with modern typographic style.

While the discarding of the old style Mercury heading may seem like losing an old friend it is but a part of a tradition which will continue to reflect in the passing of years the changes as they come and the urge to keep abreast of the growth of a community.

While the change has broken the continuity of use of the old established style there could be not better time to go modern than at a period in the history of Estevan when this city has begun a remarkable growth and change introducing the most forward thought in business, technological and cultural planning.

## Those awful typographical errors

(The Bulletin, Brooks, Alta.)

Readers of newspapers get a great deal of soul-satisfaction when they come across a typographical error. A mistake has been found and with fiendish glee they point it out to the soul-tortured editor. People in other walks of life can comfortably hide their errors, but not the editor of a newspaper!

On occasions some of these errors have been really funny. For instance there was the item reporting a council meeting which ran, "It was proposed to purchase new benches for the park as the old ones are in a rather dilapidated state."

Another newspaper printed, "By an unfortunate typographical error we were made to say that the retired Mr. Blank was a member of the defective branch of the police force. Of course this should have read — the detective branch of the police force."

Ungrammatical writing can sometimes create situations which may be more suggestive than funny. For instance, there was a report in a British newspaper of the visit of a Salvation band to Sweden, an extract from which is:

"Both the bandmen and conductor had many adventures abroad, and the best of them was in Sweden when charming maids, on bringing coffee and cakes to their bedrooms in the early morning, removed their clothes. The alarmed Salvationists were completely at a loss until the raiders returned the garments carefully brushed and pressed."

In the classified columns there is an occasional rarity. One is: "Wanted, position in night club. No bad habits. Willing to learn."

## A challenge... and an opportunity

(The Clarion, Kindersley, Sask.)

I hope lots of our own teen-agers are planning to accept the challenge of the board of trade's local safe-driving rodeo. It should be a popular event because most young people enjoy any kind of a contest and nearly all young people today pride themselves upon their skill behind the wheel.

It would not be strictly accurate to say that the tests separate the men from the boys because some of the winners in years past have been members of the fair sex, but certainly it weeds out the smart alecks who think that driving consists merely of putting a heavy foot down on the accelerator pedal and holding it there.

Recent accident statistics indicate an alarming increase in the accident rate among drivers of the under-twenty age group and it seems probable that the violent public reaction will result in much more stringent regulations applied to the granting of licences to drivers in this category.

The rodeo provides an opportunity for the more responsible members in the teen-age group to demonstrate that they are deserving of the privilege granted with an operator's licence. It also helps them fit themselves to meet more exacting standards of carmanship if the law should see fit to apply such to their age group.—RSR

## Garden helper

Everything you need for gardening is at hand in this cart. The lift-out box for small tools is equipped with kneeling pad, and you will like the trash carrier for

weeds. Pattern 423, which gives actual-size cutting guides and directions, is 40c. This pattern also is in packet 27 which gives five patterns useful to gardeners all for \$1.75.

Send order to:

Home Workshop Patterns, Department P.P.L., 4433 West 5th Avenue, Vancouver, B.C.

## Visit the Tree Planting Car

Meetings are held in the Car at each point on the itinerary, at eight o'clock in the evening. When schools are open, arrangements are made with the school authorities to have the Pupils visit the car during school hours. Sound films show the results obtained by farming people through planting trees, and give practical instruction in tree planting and home beautification. An illustrated talk covers planting methods, which trees to plant, the laying out of a shelter belt, and planning the home ground, with information on the care of trees and shrubs. A question period follows each evening meeting.

## The power of a thought

All large things in this world started by a Thought of some person.

If it was sound in principle and broad in the service it rendered to humanity, it grew and grew until it got to be really large.

When the Dominion of Canada was formed, Sir John A. Macdonald, then Premier, had the thought that there should be a railroad to join all the Provinces together, for they extended from coast to coast. So he built the (CPR) Canadian Pacific Railroad; in those days, it was a gigantic undertaking. You can read a true account of this in, "The Ribbons of Steel".

The CPR has become the richest Transportation Company in the World, with its Trains, Steamship and Air Travel.

This is only one example of the Power of a True Thought, how it grew and expanded in its useful Service to Mankind.

This Natural Law, works equally well in every angle of Human Endeavor, even in Politics and Government; as we have just seen in the recent returns of the Federal Government election.

John Diefenbaker, after getting his college education, then training in a law office, decided to devote his natural abilities to the welfare of his Country and his fellow citizens.

He represented the Lake Centre Constituency in the central part of Saskatchewan for several terms.

During the summer time, when parliament was not in session, he would spend considerable time in his constituency, holding meetings in many school houses; thus meeting the actual farmers, talked with them, found out their most important problems; which generally were, the Marketing of their productions. By this means he acquired first hand knowledge of many of the nation's problems. When going to Ottawa he brought these things before the House in a definite form.

Some of their ablest members tried to squash his enthusiasm; but with his well trained mind he was more than a match for the best of them, so they left him alone on that angle.

Their next move was to cut up his constituency, by dividing it amongst the surrounding ones; so that he had no place to represent.

Then his home town, Prince Albert, Sask., asked him to represent their constituency, which he has done ever since.

It has been a long, slow wait until he was finally chosen as leader of the Progressive Conservatives.

Since then the movements have been strong and fast, particularly to the opposing parties.

All parties had been down on John Diefenbaker for calling an election on March 31, 1958. But the election returns on that date showed that he made a very nice move.

Because ever since he first went to Ottawa, his whole aim has been the Welfare of the Entire Nation,

above any small-trivial party gains.

In short his Ideal has been the Highest possible Service to the Nation.

The Liberals now find themselves with the smallest number in a great many years. They have an able leader in Lester B. Pearson; he has done a grand work in building up Canada's prestige amongst the Western Nations; but he has a lot to learn about the separate needs of each province. From his followers will learn not to place Party at any time above the Welfare of this Growing Nation.

It is almost a tragedy that the CCF have lost two of their ablest leaders. They have indirectly brought about a great many reforms that we all now enjoy.

Their growth came about as an upheaval of the Democratic Spirit; which sometimes seems to slumber.

They came into power when the party in office, outraged all government decency. Some of their leaders have proved very able statesmen.

They are serving a useful place in one province, Saskatchewan.

With their broad-minded Premier, Hon. T. C. Douglas, who has brought many modern conveniences to the farm homes in that province, especially Rural Electricity to a large part of the farm homes there.

Through the many years of waiting to be chosen as the Leader of the Progressive Conservative Party, John Diefenbaker has been keeping himself in shape, as it were, by self discipline.

He has studied human nature, he has watched the actions and reactions of his fellow members in his party; he knew their natural abilities, their trained knowledge for a particular type of work; also their reliability when placed in any responsible position.

With all this knowledge he has been able to choose the best qualified men to help him to carry out the several changes he has planned to make for the benefit of the average taxpayer in this growing Nation Canada.

He has not tried to dominate or dictate to the members of his cabinet. He picks his men, places them at the head of the task; it is up to them to carry it through.

Quebec, the Walled City of the Liberals, returned 50 Conservative members. He has won Quebec, which everybody said could not be done. That Province is now part of Canada and will do their best to make the whole nation prosperous.

He has asked all his cabinet members to learn to speak French.

He has appointed an Indian Chief to the Senate. He seems to be trying to get every nationality to share in his Vision of Canada as a United Nation. Where all are working to bring about a wave of Expansion in Production of every Natural Product — Farm, Forest, Mine, Sea and Air.

In Canada the Natural Resources are vast in variety and volume,

## LOBSTER POUND

A lobster pound at Deer Island, New Brunswick, the world's largest, some times stores as many as a million pounds of live lobster on the sea bottom.

Printed directions on each pattern part. Easier, accurate.

Send forty cents (40c) in coins (stamps cannot be accepted) for this pattern. Please print plainly Size, Name, Address, Style No. to: Send order to:

Anne Adams Pattern Dept., Department P.P.L., 60 Front Street, W., Toronto.

so it is logical that all classes must do their level best to build all branches up to prosperity. No one can do this alone.

In this Great Canada there is plenty of work for all and millions more besides, if they have the right attitude of mind to build a lasting prosperity.

This man has developed a subtle Force of True Leadership.

"Back of the Dream is the Dreamer who makes the Dream Come True."

In this Democratic Nation we all have the Divine Power to Think, to Plan and to Create.

F. N. Spencer, 1600 McRae Avenue, Victoria, B.C.

## Winkler cannery bean supplier

Vegetable growers in the Winkler area will be the sole suppliers of navy beans to the Winnipeg and Manitoba market this year.

This announcement was made at a special grower meeting of the Co-op Prairie Cannery Ltd. at the Winkler School small auditorium.

The growers were told that the Co-op Cannery had entered into a contract with a large Winnipeg Wholesale organization to supply all the beans they required for the next year. The contract was negotiated with the assistance of provincial government officials.

Under the contract all the beans would be harvested, cleaned and picked by the Co-op Cannery. Special equipment which is required for the picking and cleaning in the plant has been purchased by the provincial government and will be installed in the plant as soon as the equipment has been cleared by the Canadian Customs Department. The equipment was purchased by the government at Crookston, Minnesota—The Winkler Progress.

A person is taller when lying down than standing up.

### Bird house

Bluebirds and wrens are a joy to have around. If you would attract them, build with an eye to their needs. Pattern 277, which gives actual-size cutting guides

for the houses shown here; will be mailed for 40c. A Bird-House-and-Feeder Packet of 10 different designs including the above is \$1.75.

## WORTH'S RADIO & AUTO SUPPLY

Albert and Victoria, Regina — Phone LA 2-8696

(The Sun, Grenfell, Sask., April 30, 1958)

**BIG BITE**—Anyone wanting a picture from this spot is advised to get it early—for soon it will be the exact centre of Grenfell's new sewage lagoon. Taken last week it shows a dragline at work in the lagoon area on the McKenzie farm. At left pressure pipe heads uphill towards town. Topsoil from the lagoon is being used to fill low and eroded spots in the field.

## Big water and sewer pipes aimed at town

The long-awaited time has come! Earth is being moved to make way for water and sewer lines which will serve Grenfell people in their houses and places of business.

Last week the ditchers, draglines, scrapers and "cats" of the contractors bit into local earth in the first mechanical step of the big operation.

Like a military pincer movement, the plan is being worked from extremities towards the middle. On the Ernie Welch farm, where the water pipe gets its start, a trenching machine was cutting 13 feet into the ground and heading for town. Head man on the job, Neil Deagle informed the press that the machine can progress from 600-800 feet each day. Ten-inch pressure pipe is being laid behind the machine as it moves on.

Sewer pipe is being laid from the lagoon area towards town, with a dragline starting the work. At the same time big scrapers are peeling off the topsoil preparatory to building the walls of the lagoon which will act as the reservoir where sewage will be purified by

natural action.

More equipment for the job arrived on flatcars over the weekend.

**BIG WHEELS**—Grenfell mayor E. R. Neely gets the feel of the controls as he sits high up on an earth scraper now working on the town's new utilities project. The big scrapers are very mobile and can ramble along at speeds up to 30 m.p.h.

### Honors bestowed on Duck Lake School Indians

At a cadet parade held in the Prince Albert Armouries, awards were presented by the General Officer Commanding to Cadets of St. Michael's Indian Residential School Cadet Corp, Duck Lake.—Sask. Valley News, Rosthern, Sk.

## Weapons in tiny fingers

In the past 10 years close to 20,000 Canadian children have died needlessly, many of them in the place where they should have found safety—their home.

In Saskatchewan, during 1957, the deaths of 90 children might have been prevented.

The tragic figures refer to children under 15 who were killed accidentally. Unlisted are other thousands of youngsters who were injured—some permanently.

The rising accident toll among children has prompted the Saskatchewan Department of Public Health to do something about it. An intensive accident-prevention program has been instituted. Sunday has been declared Child Safety Day to remind schools, communities and parents that they have a vital interest in this program. They are reminded that they have a duty to do something as well.

It is suggested that teachers survey school premises for accident-causing hazards—both in the classroom and on the playgrounds. Films on safety practices are available for classroom use. Community groups can feature child and home safety as discussion topics. Public health speakers are available. Parents should conduct a detailed search of the home for everything from matches to medicine bottles—articles that can be weapons in tiny fingers. These are only some of the suggestions.

The Department of Public Health should be supported and encouraged in its campaign to reduce accidents among children. With this leadership and the co-operation of the public on a group and individual basis, there is no logical reason why this can't be done.—Regina Leader-Post.

There are about 250 islands forming the British crown colony of Fiji.

## Try my wonderful GLAZED PEACH PINWHEEL PUDDING!

Drain and save syrup from 20-ounce can sliced peaches  
Sift together once, then into bowl,  
2c. once-sifted pastry flour or 1 1/2 c. once-sifted all-purpose flour  
4 tps. Magic Baking Powder  
1/2 tsp. salt  
1/4 c. granulated sugar

Cut in finely 1/2 c. chilled shortening  
Make well in dry ingredients; add 1/2 c. milk and mix lightly with a fork, adding milk, if necessary, to make a stiff dough. Knead 10 seconds on floured board. Roll out to 8- x 12-inches. Spread with 1/4 c. thick raspberry jam

Sprinkle with 2 tbsps. chopped almonds  
Arrange peaches over dough, beginning at a short edge, roll up; cut into 6 slices. Place, cut side up, in greased 7- x 11-inch pan. Bake in hot oven, 400°, 25 mins. Meantime, bring to boil, stirring, 1 tbsp. granulated sugar, 1 tbsp. corn starch, few grains salt, 1 tbsp. lemon juice, 1 c. peach syrup (use water, if necessary, to bring measure up to 1 c.). Stir in 1 tbsp. butter or margarine and 1/4 tsp. almond extract

Pour over partially cooked pinwheels. Bake about 20 mins. longer.  
Yield—6 servings.

Protect all your ingredients with dependable **MAGIC!** Get light and tender results...get **MAGIC Baking Powder** soon!

## Beiseker

Frosted Food Center is at present undergoing some very good improvements which will be especially appreciated in the winter time when outside steps are always more or less dangerous. Mr. W. J. Lavoie is also adding a lovely sun porch to his living quarters.

Keith Schmaltz enjoyed a one-day fishing trip with Herman Corry. Catch, one 6-inch trout and Tony Wald ate it.

### LITTLE LEAGUE BASEBALL

Little League ball features five teams, Beiseker, Irricana, Keoma, Airdrie, Davies. Following is the schedule:

May 13—Keoma at Beiseker.

Result 20—5 for Keoma.

May 16—Irricana at Airdrie.

May 16—Beiseker at Davies

Result 12—7 for Beiseker

May 20—Davies at Irricana

Airdrie at Keoma

May 23—Keoma at Davies

Irricana at Beiseker

Result 27—12 for Irricana

May 27—Davies at Airdrie

Beiseker at Keoma

Result 24—15 for Beiseker

May 29—Airdrie at Irricana

Davies at Beiseker

June 3—Keoma at Airdrie

Irricana at Davies

June 6—Irricana at Keoma

Airdrie at Beiseker

June 10—Airdrie at Davies

Beiseker at Irricana

June 13—Keoma at Irricana

Beiseker at Airdrie

June 17—Davies at Irricana

Game time is 6:15 p.m. Les

Kent and Peter Schmaltz are

Hagel; Umpire, Louis Schmal-

tz. Support the Little Leaguers

by your attendance and en-

couragement.

### GIRLS CLUBS ACHIEVEMENT DAY

The four A.W.I. Girls Clubs of Didsbury Constituency held their Achievement Day May 17 in Lone Pine Hall with tea following in the basement.

Miss Sheila Stearns, president of the Alberta Women's Institute Girls Clubs and Miss Patricia Hoskin, A.W.I. Girls Club director in District 5 of A.W.I. ably handled the program with the help of each presiding president of the clubs of Mountain View Jolly Juniors, Lone Pine Orioles, Bancroft Buttercups and Davies Daffodils.

The secretary for the day was Miss Jean Gratz—the honor gained by the nearest correct reports sent out.

The prize winners were:

1. Knitting—

Junior, Judy Stearns, Bancroft

Buttercups.

Intermediate, Ruby Milne of

Lone Pine Orioles.

Senior, Audrey Swanson, Ban-

croft Buttercups.

2. Embroidery—

Junior, Ruth Benn, Davies

Daffodils.

Intermediate — Ruth Stearns,

Bancroft Buttercups.

Senior—Patricia Hoskin, Ban-

croft Buttercups.

3. Crochet—

Junior, Mary Ann Kohl, Moun-

tain View Jolly Juniors.

Intermediate, Dorothy Hoskin,

Bancroft Buttercups.

Senior, Audrey Swanson, Bancroft Buttercups.

4. Sewing—

Junior, Christine Fry, Moun-

tain View Jolly Juniors.

Intermediate, Dorothy Hoskin,

Bancroft Buttercups.

Senior, Sandra Brander, Lone

Pine Orioles.

Cook Book—

Junior, Karen Roedler, Davies

Daffodils.

Intermediate, Pearl Gehring,

Bancroft Buttercups.

Senior, Jean Gratz, Bancroft

Buttercups.

These handicrafts were judged

by Miss Howard, District

Home Economist and com-

ments given in the afternoon.

Short Stories—

Junior, Betty Johnson, B.B.

Intermediate, Patsy Rogers of

Davies Daffodils.

Senior, Patricia Hoskin, B. B.

Judged and commented on

by Mrs. Budgeon, Crossfield.

Art—

Junior, Lisa Brander, Lone

Pine Orioles.

Intermediate, Ruth Stearns of

Bancroft Buttercups.

Senior, Jeanette Haderer, Lone

Pine Orioles and Patricia Hos-

kin, Bancroft Buttercups, tied.

Judged and commented on by

Mrs. G. Mullin of Didsbury.

Programme Books—

Junior, Christine Fry, J. J.

Intermediate, Joy Hauser, B.B.

Senior, Jeanette Haderer, L.P.

Orioles.

Judged by Mrs. Wanger, Car-

stairs.

Public Speaking—

In a Rockyview League ball game at Strathmore, the home team edged Acme 9—8 to hand Acme their first loss after two wins.

Dr. George Brough will conduct current examinations for the Royal Conservatory of Music of Toronto in Acme on June 2nd, 1958. Before coming to Canada in 1945, Dr. Brough had obtained his doctorate in music from Oxford University, and his fellowship from the Royal College of Organists. He has the unique distinction of winning top prizes in both theoretical and practical work at the Royal College of Organists.

*What new pickups offer full-width tailgate, more loadspace, more load protection?*

*Name the model with the biggest panel body size of all!*

*Which all-new forward control delivery vans offer full-width rear doors?*

*Which trucks cover a complete range in every weight class?*

**CHEVROLET PICKUPS** with boxes up to 9 ft. in length and GVW's from 5 to 7 thousand pounds!

With two body styles, three body lengths and ten handy, handy models, Chevrolet pickups are way ahead in meeting your requirements.

**CHEVROLET Model 3805** with 10-foot body built for bulkier loads than any other made!

It's the only one-ton panel in the industry — ten feet long by almost six feet wide — offering fully 213 cubic feet of load-space! And it's only one of six Chevrolet panels!

**CHEVROLET Step Vans** offer 72" flat opening rear doors!

Choose from twelve Chevy Step Vans complete with sliding doors, forward folding seats and 60-inch rear doors for obstruction-free cargo handling. Optional 72-inch flat-opening doors can be fitted for even easier access!

**CHEVROLET Trucks** with 154 models covering every trucking need from 5,000 lbs. GVW to 50,000 lbs. GCW!

They're designed to take anything and more of it! No wonder more Chevrolet Trucks are sold each year than any other make.
